🏠 Bucharest, Romania / Remote

LANGUAGE

- Romanian
- English

SKILLS SUMMARY

- Linux
- Python
- Bash Scripting automation
- Version control using GIT
- Docker containerization
- Ansible configuration management
- Jenkins CI/CD
- AWS EC2 instances

EDUCATION

IT School
DevOps
Jul-Jan 2024 (100 hours)
I learned the basics of CI/CD and gained experience with Linux, Bash Scripting, GitHub, Python, Docker Swarm, VS Code, Ansible, Jenkins, Prometheus, Grafana, Amazon EC2 and others will come.

ACCA
2019-Present
Acca Qualification , Accounting and Finance

ASE Bucharest
2016-2019
Bachelor degree - Accounting and Management Information Systems (English)

EXPERIENCE

Financial Controller
PHI Partners
Feb 2020 - Apr 2023
I had the opportunity to expand my knowledge on a multinational level, decision making power, as well as been a team leader.
My greatest achievement was the fact that i lead my team towards achieving it's goals, deadlines and improving the sales process in the company; adding value and efficiency by providing trainings and ongoing support.

PROJECTS IN GITHUB

- Step-by-step tutorial for using Ansible to install applications on multiple nodes

- Bash scripts for backups, file scraper

- Jenkins pipeline for a Python script from GitHub to a Docker image in DockerHub

- Creating basic math functions using Python language
